If We Could make every saver in this vicinity realize that in THIS savings institution he is assured of as good security as is possible in any bank of the land, our business would more than double in a month.

Why let your money work partly for others when it might as well work solely for you?

Civil War Veterans to 60 to Utah.
The Grand Army here had its encampment upon both sides of the sectional line. In going to Salt Lake City now it will visit a section which played practically little part in the Civil war on either side, because of its comparatively unsettled condition in the sixties. Denver, the metropolis of the Rockies, however, has a monument to the defenders of the Union, even though Colorado did not become a state till 1876.—Boston Transcript.

Was in His 104th Year.
John Thompson, who was in his 104th year and therefore one of the oldest men in Massachusetts, died yesterday at the Home for the Aged People in Methuen. His exact age was 103 years and seven months. He was a native of Glasgow, Scotland, and came to this country when he was a small boy, with his parents. Most of his life and his last years were spent at Manchester, N. H. He was a dyer by trade.

A Woman's Reason.
A woman can have so many different reasons for loving a man that it is almost impossible to make any difference whether they are real or not.—N. Y. Press.

HOME GARMENT MAKING.
The Bulletin's Pattern Service.

Houseboats have been in use by the natives of China for some time, and are enormous in proportion to the population of the country, and it seems surprising that American manufacturers have not made a serious effort to gain a part of the trade.

Hamburg is the principal importing center in Germany for grain for both domestic consumption and for transshipment to Denmark, Sweden and Norway. Cereals are also forwarded in river barges to Bohemia and re-exported by Baltic ports to Russia.

The government railway from Santiago to Toluca, Mexico, certainly has been under construction for some time, is now in operation. New passenger coaches for this line have just been received from the United States and are being set up in the government shops in Puerto Plata.

Cottonseed oil is well and favorably known in the Italian market, and there is, so far as can be learned, no prejudice against it. A compound lard made of cottonseed oil can and should be offered on its own merits and the whole question, therefore of successfully introducing it appears to be one of price.

The one hundredth anniversary of the birth of Hannibal Hamlin on Aug. 27 will be observed this year at Paris Hill, Me., where he first saw the light by the dedication of a memorial tablet set in a huge boulder. Among those who it is expected will be present and speak are Governor Hale, Governor Fernald and ex-Governor John D. Long of Massachusetts.

The costs of the proposed improvements to the ports on the Baltic are estimated at \$14,011,862 for St. Petersburg, \$2,426,500 for Revel, \$4,704,525 for Riga, \$2,472,000 to 15 cents and for Windan and \$216,400 for Pernau. The total appropriation demanded by the ministry of commerce for port and harbor improvements in both European and Asiatic Russia is stated to reach the enormous figure of \$110,896,237.

A shipment of 2,000 tons of frozen pork has been made from Hankow to London. The export company's refrigerating plant is built on the pattern of the best American meat packing houses. This is regarded as the opening wedge of a giant industry, as there is a big margin of profit, pork selling in London at 10 to 12 cents and in Hankow at 11-12 cents per pound. Frozen game shipments may also be made, as there is a wide difference in price in the two cities.

CHILD'S FRENCH DRESS.
Paris Pattern No. 3721—All Seams Allowed.

This frock may be made up in fine lawn or batiste, either in white or colors, and trimmed with insertions of either white or cream colored English embroidery. The long sleeves are rather tight and the frock closes at the center-back.

The pattern is in four sizes—1 to 7 years. For a child of 5 years the dress requires 2 1/4 yards of material 2 1/2 inches wide, 2 1/2 yards 3 1/2 inches wide or 2 1/4 yards 4 1/2 inches wide, 2 1/4 yards of insertion.

Price of pattern, 10 cents. Order through The Bulletin Company, Pattern Dept., Norwich, Conn.

NEW GLACIER DISCOVERED.
Found in Alaskan Cruise of George W. Perkins Party.

Cordova, Alaska, Aug. 26.—The George W. Perkins expedition, while cruising along a vast stretch of Alaskan coast, discovered on the west coast of Knights Island a new glacier, emptying into Prince William's sound. The glacier is two miles long and is 200 feet high in front. The Yucatan sailed near in 100 fathoms of water. The glacier was named Princeton, being in favor of the glaciologist, Perkins, daughter of the financier.

The excursionists all went out to the glacier in small boats. Miss Perkins smashed a bottle of champagne over the head of the glaciologist, exclaiming: "I name thee Princeton."

Mr. Perkins will ask the United States government to place the location and name on the official map. The E. H. Harriman Alaska excursion several years ago discovered and named the Yale, Harvard and Harriman glaciers.

The Perkins party sailed in the Yucatan last night for Seattle via Sitka. The Alaskan cruise has lasted two months.

KILLING OF W. N. CHANDLER.
Panama Worked Up over the Death of Newspaper Editor.

Panama, Aug. 26.—The killing in this city yesterday of William Nichols Chandler, editor of the Panama Press, by Herbert O. Jeffries, an American who took part in the Panamanian revolution of 1903, has aroused much feeling here.

The Press is a new and rather unimportant journal. It contained recently an article reflecting upon one of Jeffries' women relatives, at which Jeffries took serious offense. Chandler, who was a newspaper man in his office, and later in the day Chandler died from his injuries. In view of the unimportance of Chandler's paper and the character of the article, which caused the trouble, little importance was attached to the encounter until Chandler succumbed. But the death of the editor, who was well known, has aroused considerable local feeling.

An Unfortunate Figure.
Meaning to indicate the cheapness and inferiority of most current prices, Prof. Richard Burton says this is the scapbook age of America. The figure is unfortunate.—New York World.

A Good Man's Reward.
William Shakespear has just been elected mayor of Ilkeston, England. The honor was given to him for his services in that town.—Chicago Record-Herald.

Prosperity in the West.
It seems that the only complaint the west has to make is that its burgeoning prosperity is that it doesn't furnish enough hands to work the job.—Indianapolis News.

"Curse the Luck."
It seems that the czar of Russia escaped without G. B. Shaw finding an opportunity to drop a serpent in his soup.—Louisville Courier-Journal.

Something He Has Never Done.
When the news of the midshipman being shot through the torpedo tube reaches the west, a partial regret will strike T. R.—Chicago Tribune.

Lucky She's Not There.
See that Colonel Roosevelt is now in the region most famous by Rider Haggard as the home of "She Who Must Be Obeyed."—New York Herald.

PICKED UP HERE AND THERE.
At the present rate of increase in travel it is estimated that the railways of Manhattan and the Bronx will carry 1,700,000 passengers in 1920.

Several agricultural states of Brazil are making special effort to develop the rubber tree. A partial regret will strike T. R.—Chicago Tribune.

Hoath, a Chinese physician, who lived in the third century, gave his patients a preparation of hemp, whereby they were rendered insensible during surgical operations. The scientific effects of mandrake are mentioned by Shakespeare.

In fifteen years we have imported 25,000,000 bushels of potatoes, or, all told, about one-twelfth of a single year's crop in this country. The value of our imports has been \$12,000,000 for the fifteen years; the duties paid have been \$5,000,000.

BORROWED FROM BABYLONIANS.

Stories of Creation and Deluge Not Original with Compilers of Bible.

Chicago, Aug. 26.—The Bible is not original with its supposed compilers, according to the opinions expressed yesterday by Prof. Gerald B. Smith of the faculty of the divinity department of the University of Chicago. The stories of the creation and of the deluge appeared long before the Bible was written," the speaker said. "Both were traditional in the early literature of the Babylonians."

"The theologians of today are acquainted, as the theologians
